Annual Reports 1996

Danville, New Hampshire

Cover photo: Tuckertown Road on a peaceful winter's day.

This historic road, originally laid out in 1766, once lead to the settled area known as Tuckertown Village. The road currently provides access to the town forest and the blue heron rookery.

The Town has taken several actions over the years to preserve Tuckertown Road in it's 1800's "woods road" condition. In 1954 the road was closed by a vote of town meeting. In 1973 it was designated a scenic road and in 1996 it was designated as a Class A trail. Also in 1996, in Superior Court, the Town successfully defended against an appeal of our Zoning Board of Adjustment's decision to prohibit a proposed large scale graveling operation from turning this quiet road into a busy corridor for gravel trucks. The appeal has moved on to the NH Supreme Court where, in 1997, the Town will again attempt to save this peaceful old road.

DEDICATION

It has been the custom in Danville to dedicate the Annual Report to someone who has made a significant contribution to the Town through his/her time and efforts thereby making Danville a better place to live.

This year the Selectmen took a broader approach. We dedicate this report to those who give tirelessly of themselves, but go unnoticed. Without mentioning names, you know who they are, although you may not know their names. Every time you walk into the Town Hall they are there ready to help or answer your questions. When you call for assistance, no matter the time of day or night, they always show up ready to assist. When you call or visit the Safety Complex, be it Police or Fire, they always seem to be there willing to help. When the Town is in need, like the severe weather we experienced this fall and winter, they gave endlessly of their time. They were out for days, assisting the citizens of Danville and making the Town passable for utility companies to restore power and services to the Town. Danville fared better than all of our surrounding neighbors during the calamity because of these volunteers.

We, the Selectmen, on behalf of the Town of Danville, give all of you who do so much our heart-felt thanks. Because of you, Danville is truly a better place to live.

County	1.28

**TAX RATE \$25.80 Per \$1,000.00
 Of Assessed Value**

SELECTMEN'S MESSAGE

1996 was the first year of bi-annual tax billing. This was very successful and saved the Town \$17,000.00 in interest and borrowed money. We are hopeful that with prudent investment and cautious money management we will be able to save even more in tax dollars in 1997.

1996 also saw the gift of the new Town garage, given to the Town by Lewis Builders. The garage, along with seven acres of land will serve the Town for many years to come.

The Selectmen were very busy with appointments. We had several resignations this year which made it very taxing to run the Town on a continuing basis. Danville now has a new Treasurer, Town Clerk, Selectmen's Clerk, Trustee of the Trust Funds, Animal Control Officer, and finally, a new Selectman.

1996 saw the formation of the Danville Heritage Commission. They have been very active in identifying the history of properties in Danville, and are working with the Planning Board in the updating of the Master Plan. We wish them good luck in the future.

1996 saw the citizens of Danville confronted by Mother Nature. In late fall we saw tremendous amounts of water which caused flooding, left impassable roads, and stranded citizens. This was followed closely by an early December snowstorm which crippled all of Rockingham County. Our thanks to the many departments and their people for their long hours of service to keep Danville open and passable.

1996 also saw the first ever external audit of Danville. It is with great pleasure that we can report that Danville is in sound financial shape.

We wish all the citizens of Danville the best in 1997.

TREASURER -- 1996 REPORT

TRUSTEE OF THE TRUST FUNDS -1996 REPORT

The yield on investments for 1996 was 4.97%. This compares with a 4.4% for 1995 and 3.6% for 1994.

This year there were no new cemetery lot perpetual care funds established.

A capital gain of \$732.45 was earned on our investment in the Vanguard Windsor II Mutual Fund and apportioned among the accounts in Common Fund #1.

Over the part year, we have been transferring funds from saving accounts, CD's, and money markets to the New Hampshire Public Deposit Investment Pool. The NHPDIP invests in US Treasury and US Government Agency obligations and other such permitted investments designed to provide protection for each participant to minimize any possibility of loss.

After thirty years of service to the Town, Peter Meigs has retired as bookkeeper for the Trustees of the Trust Funds. Without his gracious assistance, I would not have been able to complete this report.

Barbara J. Chalmers, Bookkeeper

George Chaudoin, Trustee

Shelley A. Demaine, Trustee

Barbara J. Chalmers, Bookkeeper

Report of Trustees of the Trust Funds
Danville, NH. Year ending December 31, 1996

WARRANT AND BUDGET 1997

To the inhabitants of the Town of Danville in the County of Rockingham in said State, qualified to vote in Town affairs:

First Session of Annual Meeting (Deliberative)

You are hereby notified to meet at the Fire Association Hall in Danville, New Hampshire on Saturday, the fifteenth day of March, 1997 at 10.00 a.m. This session shall consist of explanation, discussion, and debate of warrant articles number 7 through 34. Warrant articles may be amended subject to the following limitations: (a) warrant articles whose wording is prescribed by law shall not be amended and (b) warrant articles that are amended shall be placed on the official ballot for a final vote on the main motion as amended.

Second Session of Annual Meeting (Voting)

Voting on warrant articles number 1 through number 34 will be conducted by official ballot at the Fire Association Hall on Tuesday, the eighth day of April, 1997. Polls will be open from 8:00 a.m. and remain open until 8:00 p.m.

1. To choose all necessary Town Officers for the year ensuing (April 8th only)
2. To choose all School District Officers for the year ensuing (April 8th only)
3. To see if the Town will vote to adopt the amendment to the existing Danville Zoning Ordinance as follows: (April 8th only)

AMEND ARTICLE V; Supplemental Regulations, Paragraph G; EXCAVATION, General; BY ADDING A NEW PARAGRAPH TO READ:

"The applicant shall be required to pay all reasonable costs or fees for special investigative studies and the review of documents, which are particular to the application, in addition to administrative and notification fees as required by the Board."

4. To see if the Town will vote to adopt the amendment to the existing Danville Zoning Ordinance as follows: (April 8th only)

AMEND ARTICLE V; Supplemental Regulations, Paragraph G, EXCAVATION, General; BY AMENDING THE LAST PARAGRAPH TO READ:

"Excavation and/or removal of earth is not permitted in the Town of Danville, unless a Special Exception is obtained from the Board of Adjustment. If a Special Exception is granted, then the proposed excavation

will be conducted to a depth not greater than three (3) feet above the seasonal high-water mark, unless the applicant can demonstrate the excavation will not adversely affect water quality and is subject to verification by an independent engineer at the applicant's expense. In order to obtain this Special Exception, the following procedure must occur."

5. To see if the Town will vote to adopt the amendment to the existing Danville Zoning Ordinance as proposed by the Danville Planning Board as follows: (April 8th only)

ADD ARTICLE XI, Growth Management and Land Use Control, to read:

"A AUTHORITY

The Section is enacted in accordance with both RSA 674:21 and 674:22.

B PURPOSES

The purposes of this section of the Zoning Ordinance are as follows:

1. Promote the development of an economically sound and environmentally stable community which considers and balances regional development needs.
2. Determine, monitor, evaluate, and establish a rate of residential growth in the Town that does not unreasonably interfere with the Town's capacity for planned, orderly, and reasonable expansion of its services to accommodate such growth.
3. Provide a temporary mechanism to allow for phased development of residential projects to manage the impact on municipal services.
4. Provide a temporary mechanism when municipal services are strained or overloaded to reduce the rate of residential growth to allow the Town time to correct any deficiencies that have developed.
5. Protect the health, safety, convenience, and general welfare of the Town's residents.

C FINDINGS

Based upon information extracted from publications and reports of the United States Census, The New Hampshire Office of State Planning, the

Timberlane School District, and the Rockingham Planning Commission, The Town of Danville hereby finds that:

1. Danville's average annual growth rate of 3.3% in the 1990-95 period is over 4 times the state average of 0.7%; over 4 times the Rockingham county average of 0.7%; almost twice the 1.75% rate for the four towns surrounding Danville, and more than the 2.0% rate for the four towns in the Timberlane School District for the same period.
2. Similar growth rate comparisons exist for the 1980-1994 periods between Danville and these other areas.
3. The NH Office of State Planning projects that Danville's growth rate will be higher than these other comparison areas over the next twenty years, and any five year increment of this time. In addition, the NH Office of State Planning growth estimates for Danville are known to be low given that the town has already exceeded the stated population projection for the year 2000.
4. Danville's average annual growth rate of housing units of 7.2% for the 1980-1993 period is almost double the state average of 3.6%/yr and the Rockingham County average of 3.9%/yr for the same time period, as well as being well above both the four towns surrounding Danville and the Timberlane towns (4.8%).
5. Danville's 1995 equalized property tax rate of \$27.77 is above the state average of \$25.10; the Rockingham County average of \$23.89; and the Timberlane town average of \$25.32. The equalized property tax rate for the 4 towns surrounding Danville is \$28.02 but this number includes the tax rate for Sandown which has recently imposed a growth ordinance. These rates reflect Danville's equalized valuation per pupil of \$215,746 being below all comparison areas.
6. The five year projection of school enrollments indicates that insufficient classroom space exists at Danville's elementary school as well as the Timberlane Regional Middle and High Schools.
7. The number of dwelling building permits (both single family and multi-family) has been 70, 44 and 73 in 1993, 1994, and 1995 respectively. In 1996, 88 building permits had been issued through mid-November with a projection of close to 100 being issued by year's end. This out paces the building permit provision of all surrounding communities.
8. In addition, there are significant capital expenditures being anticipated by the Town and the School District in the next 6 years. These are more

fully detailed in the Town of Danville Capital Improvements Program and the School District's Capital Improvement Plan.

9. According to the US Census, Danville is estimated to have grown by 92.261% between 1980 and 1990, whereas the seven nearby communities (including the member communities of the Timberlane Regional School District), Atkinson, Brentwood, Fremont, Hampstead, Kingston, Plaistow, and Sandown, have grown by an average of 54.54%. Rockingham County averaged 28.2%, and the State of New Hampshire averaged 20.5% during the same period.

10. Information provided by the Timberlane Regional School District shows that Danville's portion of the school population has increased an average over the period from the 1993-94 enrollment year to the 1996-97 enrollment year of 5.33% per year. Atkinson, Plaistow, and Sandown, the remaining communities in the Timberlane school district, averaged a yearly growth of 2.24% for the same period.

11. The increase in enrollment for the period of enrollment year 1995-96 to enrollment year 1996-97 for the Town of Danville was 15.98%. Atkinson, Plaistow, and Sandown, the remaining communities in the Timberlane school district, averaged a growth of 2.47% for the same period.

12. Further information provided by the Timberlane Regional School District computes the realistic building capacity for the Danville Elementary School at 282 students, enrollment for the enrollment year 1996-1997 is 283 students or 100.3% of realistic capacity, the projected enrollment for the year 1997-1998 is 314, or 111.3% of realistic capacity, and the projected enrollment for the enrollment year 1998-1999 is 349, or 123.7% of realistic capacity. The Timberlane Regional School District lists the Timberlane Regional High School, which also receives Danville students, as having a realistic capacity of 1038 students. Enrollment for the year 1996-1997 is 1014 students which is 97.7% of realistic capacity, the projected enrollment for the year 1997-1998 is 1051 students which is 101.3% of realistic capacity, and the projected enrollment for the year 1998-1999 is 1105 students, or 106.5% of realistic capacity.

13. Danville town departments have experienced a significant increase in requested services. From 1990 through 1995, the Danville Police Department has experienced a 106% increase in the number of phone calls (from 923 to 1901). The Danville Fire Department has observed a 48% increase in the number of yearly incidents (from 143 to 211). The Danville Library has experienced a 100% increase in book circulation (from 5329 to 10,652) during the time frame from 1992 through 1995.

D INDICATORS OF GROWTH IMPACT

The Town hereby determines that the presence of the following conditions constitutes an indicator of growth impact. An indicator of growth impact occurs when:

1. The average annual percent increase in building permits for dwelling units in Danville for the past five years exceeds the same average of surrounding communities.
2. The average annual percent population growth in the Town of Danville as reported by the Office of State Planning exceeds the same average of the surrounding communities.
3. The number of students enrolled or projected for the coming year for any public school in Danville's School District (Danville Elementary School, Timberlane Regional Middle School, or Timberlane Regional High School) exceeds 85 percent of its stated capacity as defined by the Timberlane Regional School District.
4. The annual full value tax rate of Danville as reported by the New Hampshire Department of Revenue Administration exceeds the average rate of the combined surrounding communities or Rockingham County for the reporting year.
5. The number of dwelling units of all projects combined, for which approval is being sought from the Board, at any time of reporting, if approved could result in the conditions defined by 1., 2., 3., or 4. above.
6. The number of public students enrolled or projected for the coming 5 years for each school in the town's School System (Danville Elementary School, Timberlane Regional Middle School, or Timberlane Regional High School) exceeds 100 percent of its stated capacity as defined by the Timberlane Regional School District.
7. The annual capital expenditures including debt service and capital outlay for combined municipal and school department expenditures exceeds 20 percent of the total municipal and school department expenditures combined.

E PLANNING BOARD MONITORING

It is the responsibility of the Planning Board to monitor growth in the Town and to report on the following:

1. Annual Dwelling Unit Count: The Planning Board will by February 15 of each year report on the total number of dwelling units existing at the end of its previous calendar year. Existing units means all those units previously constructed and occupied plus those units constructed and from which Certificates of Occupancy were issued in the reporting year.

2. Semi-Annual Reporting: The Planning Board by July 20 and January 20 (of the next year) will report on the number of building permits and Certificates of Occupancy issued for the previous six months for all dwelling units. In the same report, the Planning Board shall report on the status, as appropriate, of any phasing requirements or permit limitations in force in the reporting period.

3. Notice of Growth Impact: The Planning Board may at any time issue a Notice of Growth Impact, if it has determined that any of the conditions in section D exist. Said Notice would include a statement of whether those conditions could result in either section F Phasing or section G Permit Limitations.

4. Periodic Reporting: The Planning Board may at any time it thinks it is appropriate or necessary, issue written reports on the status of growth activity in the Town covering such topics as the number of dwelling units or lots being proposed for approval, or for which building permits are being sought, the condition and capacity of any municipal or school facility, the tax burden existing or anticipated on the Town's residents and/or any other topic affecting or related to the growth or finances of the Town.

Pursuant to the monitoring in sections E.1, E.2, E.3 or E.4, the Planning Board shall make appropriate findings of fact, recommendations for action, or take actions provided for in this Article of the Zoning Ordinance as a result of its monitoring and reporting responsibilities.

F PHASING OF DEVELOPMENTS

If the Planning Board, through its monitoring, finds that indicator D.1, D.2, D.3, D.4, or D.5 has occurred, then the Planning Board may at its discretion issue a Notice of Growth Impact in conformance with section E.3 to the Board of Selectmen, the Building Inspector, and the general public by posting a notice in the Town Hall. The phasing of future residential developments, as provided in RSA 674:21, is to prevent a strain on municipal services and therefore, to provide for orderly growth in Town. Phasing may be implemented as provided below:

1. Phasing Required. The Planning Board may require the phasing of a development for a period up to five years for a project which is proposed to

have 30 dwelling units (lots) or less. For a project larger than 30 units or lots, the Planning Board may require a longer period of phasing based on the size of the project and the potential impact of the number of type of units on the municipal services of the Town. The Planning Board shall make appropriate findings of fact to substantiate the need for required phasing.

2. Effect of Phasing. Once a phasing plan has been approved by the Planning Board, the project shall not be affected by any permit limitations subsequently enacted under the provisions of Section H.4 of this Ordinance, provided that the developer secures permits for and begins substantial construction on the project on the units in each yearly phase. In the event that substantial construction is not undertaken in any yearly phase, then the vesting of that phase shall be forfeited and the developer shall be subject to any limitations imposed by H.4. For the purpose of this Section, substantial construction shall mean either (1) all dwelling units in that phase are constructed to a weather tight condition or (2) 50 percent of all dwelling units in that phase are completed and a Certificate of Occupancy has been given.

3. Termination of Phasing. The above constraints shall be removed if either (1) the Ordinance expires under the provision of section I or (2) the Planning Board determines in its section E monitoring procedures that phasing is no longer necessary.

G LIMITING THE ISSUANCE OF PERMITS

If the Planning Board finds through its monitoring in accordance with section D above, that either indicators D.1, D.2, D.3, D.4, or D.5, plus one or more of indicators D.6 or D.7 has occurred, then the Planning Board may at its discretion issue a Notice of Growth Impact in conformance with section E.3 to the Board of Selectmen, the Building Inspector, and the general public by posting a notice in the Town Hall.

1. Interim Permit Limitations. Once a Notice of Growth Impact is issued, then no residential building permits shall be approved by the Building Inspector until after the hearing in Section H is held and until after the Planning Board has set the number of permits delineated in section H. The Planning Board shall set the number of permits within 45 days of the Notice of Growth Impact being issued.

H PROCEDURES FOR PHASING AND PERMIT LIMITATIONS

Once a Notice of Growth Impact pursuant to section E.3 has been issued, then the following procedures will be observed:

1. Planning Board Findings. The Planning Board will issue appropriate findings of fact to accompany any Notice of Growth Impact issued pursuant to E.3.

2. Public Hearing. Prior to invoking section F Phasing or section G Permit Limitations, the Planning Board shall hold a public hearing with ten days notice to seek input from the general public.

3. Determination of Action. After a public hearing described in Section H.2, the Planning Board shall deliberate and decide whether (1) phasing should be invoked (2) permit limitations should be imposed or (3) other appropriate action, and issue its decisions. Any decision will be issued within 45 days of the Notice of Growth Impact.

4. Permit Limitations. The following provisions shall apply:

a. The Planning Board as part of its decisions may specify what limitations are necessary in the issuance of permits for residential units up until and during any corrective action taken by the Town and/or School District. In determining the number of permits to be issued, the Planning Board shall consider the severity of the municipal service burden, the amount of capacity remaining in the service, and the amount of time needed to correct the service problem. After determining those facts, the Planning Board shall set the number of dwelling unit permits that can reasonably be issued on an annual basis.

In determining the number of permits available for lots subject to this Growth Control Ordinance, the Planning Board will take into consideration the number of permits issued for lots which are not subject to this Ordinance. In no case will the number of permits available for lots subject to this Ordinance be less than 50% of a figure developed by the Planning Board which takes into consideration the Town of Danville's average growth rate in the preceding five years and the published percentage increases in dwelling units as published by the Office of State Planning for the surrounding communities.

b. After the public hearing, the Planning Board shall set the number of permits to be issued for the one year period following enactment of the limit or such other shorter period as may be desirable. At the end of the year or such other shorter period, the Planning Board shall hold a hearing to determine if the permit limitation should be removed or altered. After making findings of fact, the Planning Board may (i) extend the permit limitation, (ii) alter the permit limitation, or (iii) remove the permit limitation.

5. Phasing. The Planning Board as part of its decision may require phasing in accordance with the provisions of section F Phasing.

6. Equitable Distribution. In order to insure equitable distribution of available permits, no individual, partnership, corporation, or other entity or its related or affiliated entities or in the case of individuals their relatives or persons associated in business may receive more than 10 percent of the permits or permits for eight units, whichever is less, available during the limitation period. This restriction may be waived or modified if, at the end of the limitation period, not all available permits have been applied for.

a. The Building Inspector shall consult with the Planning Board, and the Planning Board shall devise an administrative procedure necessary to insure equitable distribution of available dwelling unit permits under guidelines expressed above.

b. No application for a building permit will be accepted from any person who, in an attempt to avoid the building permit limitations of this Ordinance, has failed to pay fair consideration as defined by RSA 545:3 or any other person or entity who has the purpose of evasion of the limitations of Section D of this Ordinance.

I SUNSET

This ordinance shall expire at the Annual Town Meeting in 2002 unless re-adopted at that meeting. The Planning Board shall make recommendations as to the necessity and desirability of re-adopting this Ordinance prior to said Annual Town Meeting.”

6. To see if the Town will vote to adopt the amendment to the existing Danville Zoning Ordinance as proposed by the Danville Planning Board as follows: (April 8th only)

ADD ARTICLE XII, Telecommunications Facility Ordinance, to read:

“A AUTHORITY

This ordinance is adopted by the Town of Danville in accordance with the authority as granted in New Hampshire Revised Statutes Annotated 674:16 and 674:21 and procedurally under the guidance of 675:1, II.

B PURPOSE AND GOALS

This Ordinance is enacted in order to establish general guidelines for the siting of telecommunications towers and antennas and to enhance and fulfill the following goals:

1. Preserve the authority of Danville to regulate and to provide for reasonable opportunity for the siting of telecommunications facilities, by enhancing the ability of providers of telecommunications services to provide such services to the community quickly, effectively, and efficiently.
2. Reduce adverse impacts such facilities may create, including, but not limited to; impacts on aesthetics, environmentally sensitive areas, historically significant locations, flight corridors, health and safety by injurious accidents to person and property, and prosperity through protection of property values.
3. Provide for co-location and minimal impact siting options through an assessment of technology, current locational options, future available locations, innovative siting techniques, and siting possibilities beyond the political jurisdiction of the Town.
4. Permit the construction of new towers only where all other reasonable opportunities have been exhausted, and to encourage the users of towers and antennas to configure them in a way that minimizes the adverse visual impact of the towers and antennas.
5. Require cooperation and co-location, to the highest extent possible, between competitors in order to reduce cumulative negative impacts upon Danville.
6. Provide constant maintenance and safety inspections for any and all facilities.
7. Provide for the removal of abandoned facilities that are no longer inspected for safety concerns and Code compliance. Provide a mechanism for Danville to remove these abandoned towers to protect the citizens from imminent harm and danger.
8. Provide for the removal or upgrade of facilities that are technologically outdated.

C DEFINITIONS

1. "Alternative tower structure"

Innovative siting techniques that shall mean man-made trees, clock towers, bell steeples, light poles, and similar alternative-design

mounting structures that camouflage or conceal the presence of antennas or towers.

2. "Antenna"

Shall mean any exterior apparatus designed for telephonic, radio, television, personal communications service (PCS), pager network, or any other communications through the sending and/or receiving of electromagnetic waves of any bandwidth.

3. "FAA"

An acronym that shall mean the Federal Aviation Administration.

4. "FCC"

An acronym that shall mean the Federal Communications Commission.

5. "Height"

Shall mean, when referring to a tower or other structure, the distance measured from ground level to the highest point on the tower or other structure, even if said highest point is an antenna.

6. "Planning Board or Board"

Shall mean the Town of Danville Planning Board and the regulator of this ordinance.

7. "Preexisting towers and antennas"

Shall mean any tower or antenna lawfully constructed or permitted prior to the adoption of this ordinance. Shall also mean any tower or antenna lawfully constructed in accordance with this ordinance that predates an application currently before the Board.

8. "Telecommunications Facilities"

Shall mean any structure, antenna, tower, or other device which provides commercial mobile wireless services, unlicensed wireless services, cellular phone services, specialized mobile radio communications (SMR), and personal communications service (PCS), and common carrier wireless exchange access services.

9. "Tower"

Shall mean any structure that is designed and constructed primarily for the purpose of supporting one or more antennas, including self-supporting lattice towers, guy towers, or monopole towers. The term includes radio and television transmission towers, microwave towers,

common-carrier towers, cellular telephone towers, alternative tower structures, and the like.

D SITING STANDARDS

1. General

The uses listed in this section are deemed to be permitted uses that may require further review under this ordinance in accordance with Section G CONDITIONAL USE PERMITS. However, all such uses must comply with other applicable ordinances and regulations of Danville (including Site Plan Review). The following tables represent the siting standards for the listed uses as delineated by the districts in which they are located in Danville.

a. Principal or Secondary Use.

Subject to this Ordinance, an applicant who successfully obtains permission to site under this ordinance the Zoning Ordinance as a second and permitted use may construct telecommunications facilities in addition to the existing permitted use. Antennas and towers may be considered either principal or secondary uses. A different existing use or an exiting structure on the same lot shall not preclude the installation of an antenna or tower on such lot. For purposes of determining whether the installation of a tower or antenna complies with district development regulations, including but not limited to set-back requirements, lot-coverage requirements, and other such requirements, the dimensions of the entire lot shall control, even though the antennas or towers may be located on leased parcels within such lots. Towers that are constructed, and antennas that are installed, in accordance with the provisions of this ordinance shall not be deemed to constitute the expansion of a nonconforming use or structure.

2. Use Districts

New Tower Construction	1	Co-location on Preexisting Tower	2	Co-location on Existing Structure	3
Highway Commercial and Light Industrial District	PCU	P	P		
All other zoning Districts	X	P	PCU		
P = Permitted Use without Conditional Use Permit					
PCU = Permitted Use with Conditional Use Permit					
X = Prohibited					

1An antenna may be located on a tower, newly constructed, under this Ordinance.

2An antenna may be located on a preexisting tower, constructed prior to the adoption of this ordinance.

3An antenna may be located on other existing structures with certain limitations (See §D.3 below) .

3. Height Requirements.

These requirements and limitations shall preempt all other height limitations as required by the Danville Zoning Ordinance and shall apply only to telecommunications facilities. These height requirements may be waived through the Conditional Use Permit process only if the intent of the Ordinance is preserved (e.g. where a 200' tower would not increase adverse impacts but provide a greater opportunity for co-location) in accordance with § H Waivers.

New Tower Construction	Co-location on Preexisting Tower	Co-location on Existing Structure
Highway Commercial and Light Industrial District	180' Current Height + 15%	Current Height + 30'
Commercial/Retail and Service District	N/A	Current Height + 30'
All other zoning Districts	N/A	N/A

E APPLICABILITY

1. Public Property.

Antennas or towers located on property owned, leased, or otherwise controlled by the Town may be exempt from the requirements of this ordinance, except that uses are only permitted in the zones and areas as delineated in § D.2. This partial exemption shall be available if a license or lease authorizing such antenna or tower has been approved by the governing body and the governing body elects subject to state law and local ordinance, to seek the partial exemption from this Ordinance.

2. Amateur Radio; Receive-Only Antennas.

This ordinance shall not govern any tower, or the installation of any antenna that is under 70 feet in height and is owned and operated by a federally-licensed amateur radio station operator or is used exclusively for receive only antennas. This application adopts the provisions and limitations as referenced in RSA 674:16, IV.

3. Essential Services & Public Utilities.

Telecommunications facilities shall not be considered infrastructure, essential services, or public utilities, as defined or used elsewhere in the Town's ordinances and regulations. Siting for telecommunication facilities is a use of land, and is addressed by this Article.

F CONSTRUCTION PERFORMANCE REQUIREMENTS

1. Aesthetic and Lighting.

The guidelines in this subsection (A), shall govern the location of all towers, and the installation of all antennas. However, the Planning Board may waive these requirements, in accordance with § H Waivers, only if it determines that the goals of this ordinance are served thereby.

a. Towers shall either maintain a galvanized steel finisher, subject to any applicable standards of the FAA, or be painted a neutral color, so as to reduce visual obtrusiveness.

b. At a tower site, the design of the buildings and related structures shall, to the maximum extent possible, use materials, colors, textures, screening, and landscaping that will blend the tower facilities with the natural setting and built environment. These buildings and facilities shall also be subject to all other Site Plan Review Regulation requirements.

c. If an antenna is installed on a structure other than a tower, the antenna and supporting electrical and mechanical equipment must be of neutral color that is identical to, or closely compatible with, the color of the supporting structure so as to make the antenna and related equipment as visually unobtrusive as possible.

d. Towers shall not be artificially lighted, unless required by the FAA or other applicable authority. If lighting is required, the governing authority may review the available lighting alternatives and approve the design that would cause the least disturbance to the surrounding views.

e. Towers shall not contain any permanent or temporary signs, writing, symbols, or any graphic representation of any kind.

2. Federal Requirements.

All towers must meet or exceed current standards and regulations of the FAA, FCC, and any other agency of the federal government with the authority to regulate towers and antennas. If such standards and regulations are changed, then the owners of the towers and antennas governed by this ordinance shall bring such towers and antennas into compliance with such revised standards and regulations within six (6) months of the effective date of such standards and regulations, unless a more stringent compliance schedule is mandated by the controlling federal agency. Failure to bring towers and antennas into compliance with such revised standards and regulations shall constitute grounds for the removal, in accordance with § J, of the tower or antenna, as abandoned, at the owners expense through the execution of the posted security.

3. Building Codes-Safety Standards.

To ensure the structural integrity of towers and antennas, the owner of a tower shall ensure that it is maintained in compliance with standards contained in applicable local building codes and the applicable standards for towers that are published by the Electronic Industries Association, as amended from time to time. If, upon inspection, the Town concludes that a tower fails to comply with such codes and standards and constitutes a danger to persons or property, then upon notice being provided to the owner of the tower, the owner shall have 30 days to bring such tower into compliance with such standards. If the owner fails to bring such tower into compliance within 30 days, such action shall constitute an abandonment and grounds for the removal, in accordance with § J of the tower or antenna, as abandoned, at the owners expense through execution of the posted security.

4. Additional Requirements for Telecommunications Facilities

These requirements shall supersede any and all other applicable standards found elsewhere in Town Ordinances or Regulations that are less strict.

a. Setbacks and Separation.

(1) Towers must be set back a distance equal to 125% of the height of the tower from any off-site residential structure.

(2) Tower, guys, and accessory facilities must satisfy the minimum zoning district setback requirements.

(3) Towers over 90 feet in height shall not be located within one-quarter mile of any existing tower that is over 90 feet in height.

b. Security Fencing. Towers shall be enclosed by security fencing not less than six feet in height and shall also be equipped with an appropriate anti-climbing device.

c. Landscaping.

(1) Towers shall be landscaped with a buffer of plant materials that effectively screens the view of the tower compound from adjacent residential property. The standard buffer shall consist of a landscaped strip at least 10 feet wide outside the perimeter of the compound. Natural vegetation is preferred.

(2) In locations where the visual impact of the tower would be minimal, the landscaping requirement may be reduced or waived entirely.

(3) Existing mature tree growth and natural land forms on the site shall be preserved to the maximum extent possible. In some cases, such as towers sited on large wooded lots, natural growth around the property may be deemed a sufficient buffer.

G CONDITIONAL USE PERMITS

1.General

All applications under this ordinance shall apply to the Planning Board for Site Plan Review, in accordance with the requirements as provided for in the Town's Site Plan Review Regulations. In addition, applications under this ordinance shall also be required to submit the information provided for in this Section.

2. Issuance of Conditional Use Permits

In granting the Conditional Use Permit, the Planning Board may impose conditions to the extent the Board concludes such conditions are necessary to minimize any adverse effect of the proposed tower on adjoining properties, and preserve the intent of this Ordinance.

a. Procedure on application.

The Planning Board shall act upon the application in accordance with the procedural requirements of the Site Plan Review Regulations and RSA 676:4.

B .Decisions.

Possible decisions rendered by the Planning Board, include Approval, Approval with Conditions, or Denial. All decisions shall be rendered in writing, and a Denial shall be in writing and based upon substantial evidence contained in the written record.

c. Factors Considered in Granting Decisions.

- (1) Height of proposed tower or other structure.
- (2) Proximity of tower to residential development or zones.
- (3) Nature of uses on adjacent and nearby properties.
- (4) Surrounding topography.
- (5) Surrounding tree coverage and foliage.
- (6) Design of the tower, with particular reference to design characteristics that have the effect of reducing or eliminating visual obtrusiveness.
- (7) Proposed ingress and egress to the site.
- (8) Availability of suitable existing towers and other structures as discussed in § G.3.c.
- (9) Visual impacts on viewsheds, ridgelines, and other impacts by means of tower location, tree and foliage clearing and placement of incidental structures.
- (10) Availability of alternative tower structures and alternative siting locations.

3.Information Required.

Each applicant requesting a Conditional Use Permit under this ordinance shall submit a scaled plan in accordance with the Site Plan Review Regulations and further information including; a scaled elevation view, topography, radio frequency coverage, tower height requirements, setbacks, drives, parking, fencing, landscaping, adjacent uses (up to 200' away), and any other information deemed necessary by the Planning Board to assess compliance with this ordinance. Furthermore, the applicant shall submit the following prior to any approval by the Board:

- a. The applicant shall submit written proof that the proposed use/facility complies with the FCC regulations on radio frequency (RF) exposure guidelines.
- b. The applicant shall submit written proof that an evaluation has taken place, as well as the results of such evaluation, satisfying the requirements of the National Environmental Policy Act (NEPA) further referenced in applicable FCC rules. If an Environmental Assessment (EA) or an Environmental Impact Statement (EIS) is required under the FCC rules and NEPA, submission of the EA or EIS to the Board prior to the beginning of the federal 30 day comment period, and the Town process, shall become part of the application requirements.
- c. Each applicant for an antenna and or tower shall provide to the Planning Board an inventory of its existing towers that are within the jurisdiction of the Town and those within two miles of the border thereof, including specific information about the location, height, design of each tower, as well as economic and technological feasibility for co-location on the inventoried towers. The Planning Board may share such information with other applicants applying for approvals or conditional use permits under this ordinance or other organizations seeking to locate antennas within the jurisdiction of the governing authority, provided, however that the Planning Board is not, by sharing such information, in any way representing or warranting that such sites are available or suitable.

If the applicant is proposing to build a new tower, the applicant shall submit written evidence demonstrating that no existing structure can accommodate the applicant's proposed antenna. This evidence can consist of:

- (1) Substantial Evidence that no existing towers or structures are located within the geographic area required to meet the applicant's engineering requirements, provided that a description of the geographic area required is also submitted.
- (2) Substantial Evidence that existing towers are not of sufficient height to meet the applicant's engineering requirements, and why.
- (3) Substantial Evidence that the existing towers or structures do not have sufficient structural strength to support applicant's proposed antenna and related equipment.
- (4) Substantial Evidence that applicant's proposed antenna would cause electromagnetic interference with the antenna on the existing towers or

structures, or the antenna on the existing towers or structures would cause interference with the applicant's proposed antenna.

(5) Substantial Evidence that the fees, costs, or contractual provisions required by the owner in order to share the existing tower or structure are unreasonable. Costs exceeding new tower development are presumed to be unreasonable.

(6) Substantial Evidence that the applicant can demonstrate other limiting factors that render existing towers and structures unsuitable.

d. The applicant proposing to build a new tower, shall submit an agreement with the Town that allows for the maximum allowance of co-location upon the new structure. Such statement shall become a Condition to any Approval. This statement shall, at a minimum, require the applicant to supply available co-location for reasonable fees and costs to other telecommunications providers. Failure to provide such an agreement is evidence of the applicant's unwillingness to cooperate with the orderly and well-planned development of the Danville, and grounds for a Denial.

e. The applicant shall submit the engineering information detailing the size and coverage required for the facility location. The Planning Board may have this information reviewed by a consultant for verification of any claims made by the applicant regarding technological limitations and feasibility for alternative locations. Cost for this review shall be borne by the applicant in accordance with 676:4(g).

H WAIVERS

1.General

Where the Board finds that extraordinary hardships, practical difficulties, or unnecessary and unreasonable expense would result from strict compliance with the foregoing regulations or the purposes of these regulations may be served to a greater extent by an alternative proposal, it may approve waivers to these regulations. The purpose of granting waivers under provisions of these regulations shall be to insure that an applicant is not unduly burdened as opposed to merely inconvenienced by said regulations. The Board shall not approve any waiver(s) unless a majority of those present and voting shall find that all of the following apply:

a. The granting of the waiver will not be detrimental to the public safety, health or welfare or injurious to other property and will promote the public interest.

b. The waiver will not, in any manner, vary the provisions of the Danville Zoning Ordinance, Danville Master Plan, or Official Maps.

c. Such waiver(s) will substantially secure the objectives, standards and requirements of these regulations.

d. A particular and identifiable hardship exists or a specific circumstance warrants the granting of a waiver. Factors to be considered in determining the existence of a hardship shall include, but not be limited to:

(1) Topography and other Site features

(2) Availability of alternative site locations

(3) Geographic location of property

(4) Size/magnitude of project being evaluated and availability of co-location.

2. Conditions

In approving waivers, the Board may impose such conditions as it deems appropriate to substantially secure the objectives of the standards or requirements of these regulations.

3. Procedures

A petition for any such waiver shall be submitted in writing by the applicant with the application for Board review. The petition shall state fully the grounds for the waiver and all of the facts relied upon by the applicant. Failure to submit petition in writing shall require an automatic denial.

I BONDING AND SECURITY AND INSURANCE

Recognizing the extremely hazardous situation presented by abandoned and unmonitored towers, the Planning Board shall set the form and amount of security that represents the cost for removal and disposal of abandoned towers in the event that the tower is abandoned and the tower owner is incapable and unwilling to remove the tower in accordance with § J. Bonding and surety shall be consistent with the provision in the Subdivision Regulations. Furthermore, the Planning Board shall require the submission of proof of adequate insurance covering accident or damage.

J. REMOVAL OF ABANDONED ANTENNAS AND TOWERS

Any antenna or tower that is not operated for a continuous period of 12 months shall be considered abandoned and hazardous to the public health and safety, unless the owner of said tower provides proof of quarterly inspections. The owner shall remove the abandoned structure within 90 days of receipt of a declaration of abandonment from the Town notifying the owner of such abandonment. A declaration of abandonment shall only be issued following a public hearing, noticed per Town regulations, with notice to abutters and the last known owner/operator of the tower. If the abandoned tower is not removed within 90 days the Town may execute the security and have the tower removed. If there are two or more users of a single tower, this provision shall not become effective until all users cease using the tower."

7. To see if the Town will vote to raise and appropriate the sum of \$414,596.76 (Four Hundred Fourteen Thousand, Five Hundred Ninety-six Dollars and Seventy-six Cents) (gross budget) for the construction and partial equipping of an addition to the existing Colby Memorial Library as shown in architectural drawings by Lee M. Berard & Consultants and T.F. Moran, Inc. of Bedford, New Hampshire, and as presented by the Library Trustees, and to authorize the issuance of not more than \$312,000 (Three Hundred Twelve Thousand Dollars) of bonds or notes in accordance with the provisions of the Municipal Finance Act (RSA Ch. 33) and to authorize the appropriate municipal officials to issue and negotiate such bonds or notes and to determine the rate of interest thereon; further, to authorize a withdrawal of an additional \$102,596.76 (One Hundred Two Thousand, Five Hundred Ninety-six Dollars and Seventy-six Cents) and accumulated interest from the Colby Memorial Library Capital Reserve Fund created for this purpose (thereby closing said fund), and additionally to accept any federal, state, or private grants and/or donations that may be received. (RECOMMENDED BY SELECTMEN) (RECOMMENDED BY BUDGET COMMITTEE)

8. If Article 7 passes, to see if the Town will vote to raise and appropriate the sum of \$4,000 (Four Thousand Dollars) to be used for "Operating Expenses" for the addition to the Colby Memorial Library for the remainder of the year of construction. (RECOMMENDED BY THE SELECTMEN) (RECOMMENDED BY THE BUDGET COMMITTEE)

9. If Article 7 fails, to see if the Town will vote to raise and appropriate the sum of \$50,000 (Fifty Thousand Dollars), to be added to the Colby Memorial Library Capital Reserve Fund previously established. (RECOMMENDED BY THE SELECTMEN) (RECOMMENDED BY THE BUDGET COMMITTEE)

10. To see if the Town will vote to adopt the provisions of RSA 202A:4-d authorizing the Library Trustees to accept gifts of personal property, other than money, which may be offered to the library for any public purpose, provided, however, that no acceptance of personal property by the Library Trustees shall be deemed to bind the Town or the Library Trustees to raise, appropriate, or expend any public funds for the operation, maintenance, repair or replacement of such personal property. (RECOMMENDED BY THE SELECTMEN)

11. To see if the Town will vote to change the Sexton of the Cemeteries position from an elected position to an appointed position. (RECOMMENDED BY THE SELECTMEN)

12. To see if the Town will vote to raise and appropriate the sum of \$25,000 (Twenty-five Thousand Dollars) to be placed in the "Capital Reserve Fund for future Fire Department Capital Expenditures." (RECOMMENDED BY THE SELECTMEN) (RECOMMENDED BY THE BUDGET COMMITTEE)

13. To see if the Town will vote to raise and appropriate the sum of \$70,000.00 (Seventy Thousand Dollars) including the cost of the benefit package as offered by the Town and overtime pay as may be required, to hire 2 (two) full-time fire personnel. (RECOMMENDED BY THE SELECTMEN) (RECOMMENDED BY THE BUDGET COMMITTEE)

14. To see if the Town will vote to allow the Selectmen/Fire Wards to sell an obsolete vehicle from the Fire Department. The vehicle is as follows: a 1952 Dodge Pickup (M37), Vehicle ID #80034492. Any funds realized from said sale shall be placed in the "Capital Reserve Fund for future Fire Department Capital Expenditures." (RECOMMENDED BY THE SELECTMEN) (RECOMMENDED BY THE BUDGET COMMITTEE)

15. To see if the Town will raise and appropriate the sum of \$5,000.00 (Five Thousand Dollars) to refit and repair the Department's 1978 Dodge Pickup as needed to place it in full service. (RECOMMENDED BY THE SELECTMEN) (RECOMMENDED BY THE BUDGET COMMITTEE)

16. To see if the Town will vote to raise and appropriate the sum of \$18,000.00 (Eighteen Thousand Dollars) to purchase and install an emergency generator system, large enough to supply the Town Hall and Safety Complex during any power outages and/or emergency situations. (RECOMMENDED BY THE SELECTMEN) (NOT RECOMMENDED BY THE BUDGET COMMITTEE)

17. To see if the Town will vote to raise and appropriate the sum of \$2,100 (Two Thousand, One Hundred Dollars) for the purpose of purchasing 1 (one) Doppler Speed Radar System, Carrying Case, and Tuning Forks.

(RECOMMENDED BY THE SELECTMEN) (RECOMMENDED BY THE BUDGET COMMITTEE)

18. To see if the Town will vote to raise and appropriate the sum of \$10,000 (Ten Thousand Dollars) to be placed in the Police Cruiser Capital Reserve Fund. (RECOMMENDED BY THE SELECTMEN) (RECOMMENDED BY THE BUDGET COMMITTEE)

19. To see if the Town will vote to raise and appropriate the sum of \$10,000 (Ten Thousand Dollars) to establish a Capital Reserve Fund for a road repair project on Pine Street from Route 111-A to the second entrance of Crestwood Drive. (RECOMMENDED BY THE SELECTMEN) (RECOMMENDED BY THE BUDGET COMMITTEE)

20. To see if the Town will vote to raise and appropriate the sum of \$10,000 (Ten Thousand Dollars) to establish a Capital Reserve Fund for bridge and/or culvert replacement on Johnson Road. (RECOMMENDED BY THE SELECTMEN) (RECOMMENDED BY THE BUDGET COMMITTEE)

21. To see if the Town will vote to raise and appropriate the sum of \$10,000 (Ten Thousand Dollars) to establish a Capital Reserve Fund for bridge and/or culvert replacement and to elevate the road bed to alleviate the annual flooding conditions on Sandown Road from the existing culvert to the Sandown Town Line. (RECOMMENDED BY THE SELECTMEN) (RECOMMENDED BY THE BUDGET COMMITTEE)

22. Shall we modify the elderly exemptions from property tax in the Town of Danville based on assessed value, for qualified taxpayers, to be as follows: for a person 65 years of age up to 75 years, \$45,000; for a person 75 years of age up to 80 years, \$65,000; for a person 80 years of age or older, \$80,000? To qualify the person must have been a New Hampshire resident for at least 5 years, own the real estate individually or jointly, or if the real estate is owned by such person's spouse, they must have been married for at least 5 years. In addition, the taxpayer must have a net income of not more than \$22,500 or, if married, a combined net income of less than \$31,500; and own net assets not in excess of \$61,500 excluding the value of the person's residence. These changes will be effective January 1, 1998. (RECOMMENDED BY THE SELECTMEN)

23. To see if the municipality will vote to allow the Selectmen to sell at public auction a piece of land in Danville owned by the Town of Danville, that being, Map 3, Lot 131. (RECOMMENDED BY THE SELECTMEN)

24. To see if the municipality will vote to authorize the establishment of a Capital Reserve Fund (pursuant to RSA Chapter 35) for the future revaluation of the municipality and to raise and appropriate the sum of \$15,000 (Fifteen

Thousand Dollars) towards this purpose, and appoint the Selectmen as agents to administer the fund. (RECOMMENDED BY THE SELECTMEN) (RECOMMENDED BY THE BUDGET COMMITTEE)

25. To see if the municipality will vote to raise and appropriate \$8,000 (Eight Thousand Dollars) to install central air conditioning in the Town Hall. (RECOMMENDED BY THE SELECTMEN) (NOT RECOMMENDED BY THE BUDGET COMMITTEE)

26. To see if the municipality will vote to raise and appropriate \$3,648 (Three Thousand Six Hundred Forty-eight Dollars) to purchase a copier for the Town Hall. (RECOMMENDED BY THE SELECTMEN) (RECOMMENDED BY THE BUDGET COMMITTEE)

27. To see if the municipality will vote to raise and appropriate \$1,500 (One Thousand, Five Hundred Dollars) to purchase a security alarm system for the Town Hall. (RECOMMENDED BY THE SELECTMEN) (RECOMMENDED BY BUDGET COMMITTEE)

28. To see if the municipality will vote to raise and appropriate \$1,500 (One Thousand, Five Hundred Dollars) to increase the tax collector's salary to \$7,000 per year. (RECOMMENDED BY THE SELECTMEN) (RECOMMENDED BY THE BUDGET COMMITTEE)

29. To see if the municipality will vote to raise and appropriate \$3,500 (Three Thousand, Five Hundred Dollars) to: (1) increase the town clerk's salary \$1,500 (from \$1,500 to \$3,000 per year), (2) to increase the funding for the deputy town clerk (\$2,000) to work additional office hours, and (3) to increase the Town Hall hours for the town clerk's office to a minimum of twenty hours per week. (RECOMMENDED BY THE SELECTMEN) (RECOMMENDED BY THE BUDGET COMMITTEE)

30. To see if the municipality will vote to raise and appropriate \$5,608 (Five Thousand, Six Hundred Eight Dollars) to purchase a town clerk software package. (RECOMMENDED BY THE SELECTMEN) (RECOMMENDED BY THE BUDGET COMMITTEE)

31. To see if the Town will vote to establish a Heritage Fund for Danville, NH in accordance with the provisions of RSA 674:44-d to carry out the purposes of the Heritage Commission, or take any other action relating thereto. The whole or any part of any money appropriated in any year and any gifts of money received pursuant to RSA 674:44-b shall be placed in a heritage fund and allowed to accumulate from year to year. Money may be expended from such fund for the purposes of the Heritage Commission with approval of the

Selectmen but without further approval of the Town Meeting. (BY PETITION)
(RECOMMENDED BY THE SELECTMEN)

32. To see if the Town will vote to discontinue the positions of elected Town auditors. (BY PETITION) (NOT RECOMMENDED BY THE SELECTMEN)

33. To see if the Town will vote to deposit 100% of the revenues collected pursuant to RSA 79-A (the land use change tax) up to an annual cap of \$10,000 (Ten Thousand Dollars) into the Conservation Fund in accordance with RSA 36-A:5III as authorized by RSA 79-A:III. (BY PETITION) (RECOMMENDED BY THE SELECTMEN)

34. Shall the Town of Danville raise and appropriate as an operating budget, not including appropriations by other warrant articles, the amounts set forth on the budget posted on the warrant, for the purposes set forth therein, totaling \$893,230.00 (Eight Thousand, Ninety-three Thousand, Two Hundred Thirty Dollars)? Should this article be defeated, the operating budget shall be \$876,380.00 (Eight Hundred Seventy-six Thousand, Three Hundred Eighty Dollars), which is the same as last year, with certain adjustments required by previous action of the Town of Danville or by law or the governing body may hold one special meeting, in accordance with RSA 40:13, X and XVI, to take up the issue of a revised operating budget only .

Given under our hands and seal, this twenty-second day of February, in the year of our Lord nineteen hundred and ninety-seven.

Appropriations & Estimates of Expenses for 1996 and Proposed 1997 Budget

<u>Purpose of Expense</u>	<u>Estimated Expense 1996</u>	<u>Actual Expense 1996</u>	<u>Selectmen's Budget 1997</u>	<u>Recommended Budget 1997</u>	<u>Not Recommended 1997</u>
Town Hall Copy Machine			3,648	3,648	0
Town Hall Security Alarm			1,500	1,500	0
Tax Collector Salary Increase			1,500	1,500	0
Town Clerk & Dep. Clerk Salaries			3,500	3,500	0
Town Clerk Software Package			5,608	5,608	0
TOTAL APPROPRIATIONS	\$913,744.52	\$832,431.00	\$1,628,651.00	\$1,534,682.00	\$95,069.00

Less:

Amount of Estimated Revenue
exclusive of Property Taxes

\$659,216

Amount of taxes to be raised exclusive of
School and County Taxes

\$875,466 *

***Note:** The amount of taxes to be raised in 1997 is actually estimated to be \$491,870 since only the first year of the library bond (estimated at \$81,000) would be raised, not the full amount of \$414,596. If the library bond passes, the capital reserve warrant for the library (\$50,000) would not be raised, so this amount was also subtracted from the estimated amount of taxes to be raised (exclusive of school and county taxes).

AUDITORS - 1995 REPORT

The accounts of Tax Collector, Town Clerk, Library, Trustee of the Trust Funds, and Selectmen have been audited. A report was filed with the Department of Revenue Administration. The following items were presented to the Selectmen for action:

Tax Collector: Due to a "bug" within the software utilized by the Tax Collector, only part of the interest redemption due was collected.

Trustee of the Trust Funds: Did not book keep one deposit. Capital Reserve fund was not in custody of the Trustee of the Trust Fund at year end. (Selectmen issue.)

Treasurer: Cash book balance differs from year end cash value (\$264). Numerous bookkeeping errors (transposed numbers). Amounts/deposits do not agree with Selectmen.

Selectmen: Numerous mixed entries within accounts (income and expenditures). Inconsistent voucher system (by department). Duplicate vouchers within the Police Department account. Gross amounts balance, but unable to reconcile by departments or general ledger accounts due to inconsistent bookkeeping.

Town Clerk: Marriage fees due to State did not balance between cash books and Selectmen's books. Totals collected vs. remitted to Treasurer were mismatched and included mixed years (1994/1995).

Thomas Billbrough
Linda J. Carey

AUDITORS - 1996 REPORT

Due to circumstances beyond our control, the 1996 Auditor's report has not been completed at this time. A final report will be filed with the Town Selectmen and the Department of Revenue Administration and will appear in the 1997 Town report.

Thomas Billbrough
Linda J. Carey

TOWN FORESTERS - 1996 REPORT

This hasn't been a busy year in the Town forests. No one cut any wood. Two years ago Joe DeMarco cut all the marketable trees. In twenty-five years a new crop will be harvested which will mean more income for the Town.

Melton R. Sanborn,
Town Forester

COLBY MEMORIAL LIBRARY-1996 REPORT

We have had a very busy year. Patronage and circulation increased by 20.5%. We added 580 books and 21 videos to the collection.

Pat Collins became a library aide this year.

The Friends of Colby Memorial Library sponsored two programs this year. A spring program, Backyard Composting presented by Nancy Adams of the County Extension Service, and a Fall program, Women in New Hampshire 1630 to 1980 presented by Shelby Shand, a costumed speaker.

Reading: the Best Game Around was the slogan for this year's summer program. 69 children enrolled. Because of the amount of children attending storytimes, we had 3 storytimes per week. Every week the children "visited" a different country through stories and games. Our kick-off program was Bob Riordan's Magic Show. Mary Desrosiers presented a games program in July. In August we concluded our program with a picnic featuring international folktales and foods.

In December, Shelby Shand presented a program on Christmas Customs.

Plans for a 4,000 square foot addition to the library are proceeding and include a handicapped accessible, two-level addition with increased parking. Voting on the addition will be held on election day in April. If the addition passes, building could begin as early as May. Please stop in at the library to see the artist's rendering of the addition.

Thanks to the Friends of the Library for their continued support, thanks to Steve Thomas for the beautiful Christmas wreath, thanks to all the people who donated books, videos, audios, and magazines. Special thanks to Ashleigh Putnam, Heather Weinhold, Laura Peterson, Ruth Keighly, Tim Billbrough, and Tom Billbrough who volunteered at the library this year.

Library hours are: Monday and Tuesday 1-8PM, Thursday 11AM to 8PM and Saturday 9:30 AM to 1 PM.

Dottie Billbrough,
Director

Nancy Sheridan
Don Kimball
Gloria Maduzia,
Trustees

Involvement of Hazardous Materials	3	8	21
Training Drills	23	13	11
Total Incidents	165	211	316

During the past year most of the increase in services were caused by environmental conditions; two snow and ice storms that caused power outages of long duration and a 16.8 inch rainfall in the October storm. This was listed as a "Hundred Year Storm". Most other areas of service were less than last year, even with an increase in the number of new homes which has raised our population by over 200 people.

This year we would like to complete our small forestry/utility truck. This is a G.I surplus unit that needs an upgrade by adding power steering and purchasing a "poly skid unit". At the present time we have most all other items that will be needed to complete this unit at a very reasonable cost.

To be better able to meet our needs in serving the Town during all emergencies, it has been proven that a generator unit is drastically needed to service the Town Hall and Safety Complex. This needs to be large enough to fully function the electrical requirements of our community's life center.

FIRE DEPARTMENT REPORT (Continued)

During the past year we were faced with the sad need for the "Med flight" services for three victims with traumatic injuries involving motor vehicle accidents. This is done through "Boston Med flight" and "Dart" of Lebanon, NH. When this type of injury is received "time" is one of the most important single things we can provide for the patient and by using the Med flight the patient has the best chance of receiving the best services available in the shortest amount of time. These copters transport to the nearest major trauma center which can provide the type of service needed for the patient. This is done without regard to who is paying for the service or to what hospital is funding the service.

Steven Woitkun,
FireWards

BUILDING INSPECTOR -1996 REPORT

1996 saw the biggest demand for building permits in Danville history. All segments were active, new homes, additions, garages, decks, and pools. There were also heavy demands for electrical, plumbing, and fire safety inspections. There were a total of 130 permits issued , including 11 which came out of the lottery. The breakdown is as follows:

86 New Homes	\$9,107,612.00
05 Decks	5,050.00
07 Garages	81,600.00
18 Additions	109,250.00
14 Sheds, Pools, Other	39,187.00

TOTAL	\$9,342,699.00

POLICE DEPARTMENT-1996 REPORT

As I reflect back on 1996, I can't help but remember the devastating accident that occurred on Route 111 in August. The accident claimed the life of two teenage boys and left another young man paralyzed, perhaps for the rest of his life. Sadly, this tragedy could have been avoided. Excessive speed was the contributing factor. In October another young man suffered a broken neck in a speed related accident on Long Pond Road. Amazingly, he survived but now faces a long road of physical therapy to try to recover the physical capabilities he once had. With one cruiser on duty per shift, we obviously could not be all over Town at once, so many of these unfortunate accidents we were not able to deter.

What we expect to do in the months ahead is deal aggressively with speed related issues. We are seeking a new Doppler Radar with dual antennas that will allow us to double our target area. We will also utilize two cruisers periodically to concentrate on the areas most effected by speed offenders. Remember, as a result of a new law effective February 1, 1997, a conviction of any motor vehicle violation by a licensed driver under age twenty shall result in suspension of the individual's driver's license.

The Danville Police Department once again welcomed additions, new techniques and procedures. In 1996 we concentrated on areas that needed focus and improvement. The areas included reorganizing the filing system and a more comprehensive data program in tracking calls for service. These enhancements will provide us quick and accurate information. We also reorganized our office space to remedy our space requirements.

The Detective Division that was implemented this year has proven to be successful, offering more detailed investigations of accidents. The division's allotment of time was extremely successful. Burglaries were solved and several arrests were made.

Our community service programs were enhanced this past year. We sponsored a crime watch seminar and provided bicycle inspections at the annual "Bike-A-Thon". We utilized the cable channel for assistance and set up an informational service area at the front door of the station for different forms and documents that may be necessary for some citizens. By our focus on community service we are welcoming open communications with town residents. There is much to be gained by providing information about state laws; what is required of police officers and how it affects the public. Most importantly, getting to know each other builds positive attitudes, especially in our children. It is also important that this be a two way street, opening up communication between police officers and you helps us all to keep our town safe and secure.

Great progress was made by those who volunteered their expertise, time and experience in making it possible to get our 1986 Chevy Diesel 4X4 in service. A sincere thank you to Matt's Auto for mechanical assistance, Mr. Jeff Hunt for painting and marking the unit, and LaBrie Property Maintenance for

donating a truck bed liner. Also, to Des-Con Systems, Ltd. for donating shelves and counter tops to our new processing room.

Please feel free to contact us if you have any questions, concerns, complaints, or suggestions. Input and ideas help all of us. Thank you.

Sincerely,

Wade Parsons
Chief of Police

ANIMAL CONTROL-1996 REPORT

1996 has been a year of several changes in and with Animal Control issues. Our main objective is to bring the Town of Danville up to date to abide by New Hampshire State Law to keep our community safe.

By this I mean during the height of the rabies epidemic a few years ago, state law was established to mandate all dog owners to license and inoculate their pets because this particular strain of rabies was spread by bodily fluids from animals with rabies. Your pet does not have to be attacked or bitten by a rabid animal, just bodily fluids such as saliva can be exchanged. The seriousness of this epidemic produced the state law. We are now implementing compliance of this law. State, local government, and community members have experienced high cost and inconvenience when an individual is scratched or bitten by a dog whose rabies inoculations are not current. This situation means that the person bitten, or the families involved with the dog must be inoculated for rabies as a precaution and that the dog be taken from his/her owner. Rabies inoculations for people are extremely expensive. By enforcing the laws for licensing and inoculations, we help to avoid that type of problem and keep the community safer.

Animal Control now has a computerized system to record all dog licenses and for tracking purposes. We have round the clock coverage. We have experienced a problem finding a daytime ACO. This is now in the process of being completed.

We have purchased badly needed equipment for the safety of the Animal Control personnel. New forms have been made for proper record keeping. We are establishing Policies and Procedures for the first time. Twenty-four hour kenneling is being established.

I realize that some residents who have been introduced to our new changes have been less than pleased, but as was stated, these procedures, rules, and regulations for compliance of state law is to keep our Town a safer place to live.

Sincerely,

Officer Stephen Manni
Director, Animal Control Division

PLANNING BOARD - 1996 REPORT

The Planning Board would like to take this opportunity to thank the townspeople for their continued support by approving all of the zoning changes recommended by the Board at the 1995 Town Meeting.

Passage of the Interim Growth Ordinance gave the Board the necessary breathing room to concentrate on updating the Master Plan which, in turn, will provide support for a flexible Growth Control Ordinance that would take into consideration a number of factors. When the Board realized that these factors were imbedded in a mountain of data, we applied for and were awarded a matching grant from the Rockingham Planning Commission for additional help in completing the project.

The first draft of the Master Plan was completed in October and is now in the process of being revised to provide support for the growth ordinance being presented to the Town. Additionally, the Master Plan will utilize the town maps initiated by the Conservation Commission last year.

The Board believes that one of the best ways to insure that the Planning Board is "on top of" the issues that are important to the Town is through continuing education of its members. In November Board members attended a well organized and well run all day seminar on Growth Management. This seminar provided much needed insight to the different avenues of Growth Management that this Board will explore during the coming years.

BUDGET COMMITTEE - 1996 REPORT

This has been a very busy year with new members coming on board after the meetings had began. All of our meetings were televised and the tapes were placed in the library for future review.

We worked hard to make sure that the Departments received the appropriations that they required so that they could continue to do the excellent job that they have done in the past. As the same time, we kept the taxpayers' wallets in our thoughts as we prepared the budget.

This is also the first year that we are deliberating under SB2. There is to be a public hearing, town meeting (deliberative session), and a second meeting that will be informational only. The actual vote on the budget will be on the second Tuesday in April.

Francine Byron
Chairman, Budget Committee

CABLE TV COMMITTEE - 1996 REPORT

Danville's Cable Television committee had another successful year with virtually every Selectmen's meeting, Budget Committee meeting, Planning Board meeting, and Heritage Commission meeting being televised. The Committee's dedicated volunteers televised several meetings of the Conservation Commission and Zoning Board of Adjustment as well. In addition, notices for over 300 Town meetings and events were shown on the station's electronic bulletin board.

During 1997, the Cable TV Committee is hoping to televise even more Town meetings and events. If you are interested in helping out, please contact Barry Hantman at 382-5927 or Jerry Maduzia at 642-7814. No prior experience is necessary. A commitment of just one evening a month would be a big help.

Thank you for watching us on New Hampshire's #1 cable television channel, Danville's Cable 20.

CONSERVATION COMMISSION - 1996 REPORT

1996 saw the completion of the Danville Conservation Commission's mapping project. The project was cofunded by both the Conservation Commission and the Rockingham Planning Commission (RPC). The Conservation Commission worked with RPC to digitize into the Geographical Information System the Town's 911 map as well as tax maps of town owned lands, owner unknown lands, open space, and town trails. 11" x 17" color versions of the map will be available at the Town Hall for those who would like one.

The Danville Conservation Commission also worked with the New Hampshire State Wetlands Division in an effort to remedy several major wetlands violations that occurred at the Colby Pond Development. The State implemented several of the Conservation Commission's recommendations. These included revegetation of wetlands, establishing a vegetative buffer zone around the pond as well as a birding trail, stocking the pond with fish and placing wood duck boxes around the pond.

With the development of the Rockrimmon area, the Commission worked with the Planning Board, local citizens, a developer, and adjacent landowners to help preserve the rural character of Rockrimmon Road. The patience of everyone involved and the generosity of adjacent landowners enabled the majority of the Road to be preserved for recreational purposes.

Laura Games

Sam Mills

Cochairmen, Danville Conservation Commission

HERITAGE COMMISSION - 1996 REPORT

The Danville Heritage Commission was created and authorized at the 1996 Town Meeting. Its present advisory charge is to work towards the identification, preservation, and protection of the Town's historic resources and to provide a central information source on the Town's history. Under enabling legislation passed in 1995, the Commission was also authorized by that Town Meeting vote to assume the powers and duties of an Historic District Commission should the Town adopt historic district zoning and regulations in the future.

In the months following the March Town Meeting, seven regular members and three alternates joined the Commission. In August of 1996 the Commission began holding regular meetings on the second and fourth Wednesday of each month. In the remaining four months of the year, Commission members assisted the Planning Board with its Master Plan update. Their work included writing the very first "Overview of Historical Development of the Community" section, verifying and updating the existing inventory and map of the Town's historic resources and indexing the historic inventory with identifying street locations. The Commission toured the Town to accomplish this task and at the same time created a videotape of historic structures throughout the Town. The Commission also worked with the Board of Selectmen, the Planning Board, a local developer, and the Hawke Historical Society in an effort to try to preserve the 1751 homestead of a town founder on Beach Plain Road.

Although it is a young board, the Heritage Commission has already developed a list of future projects. Commission members look forward to continuing their work to identify, preserve, and protect Danville's unique and significant historical character.

Carol Baird, Chairman
Danville Heritage Commission
